or anything. A single word, on the notes line: "She." Just those three letters. The next day, I received another note. It too contained a single word: "belongs." A third note, the next day. This time, two words. Four letters. "To me." Ten million dollars, or our daughter would die. And then, there was a knock on my door. A sleek black limousine sat on the curb in front of my house. A driver stood in front of me, and he spoke six words: "It's time to pay your debt." Would you have gotten in? I did. It turns out there is no happily ever after for us. A brilliant satire of mass culture and the numbing effects of technology,

White Noise tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over there lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the

music of American magic and dread. Homeward Bound: The Incredible Journey meets Dog Heaven in this profoundly beautiful book about the special relationship between kids and dogs, the importance of language, and finding the meaning of life even in its final days. Poignant, hopeful, and lovingly told, this dog's journey—told by the dog himself in his own unique words—proves that love abides beyond a lifetime, out of sight but never far away. As a dog and his little girl go on their final walk together, he experiences the sights, smells, and wonders of this

world one last time before peacefully passing on. But for such a good boy (oh yes, he is!) and his foreverfriend, that doesn't mean it's the end. Offering a unique and noteworthy take on death, this book balances the somber topic with a dog's ever-optimistic viewpoint, all woven together with its unconventional yet fitting approach to language. Family members, librarians, art-lovers, and educators alike will use this book as an accessible and comforting introduction to the ever-difficult topic of death, discussed and related in a new way with hopeful, uplifting,

innovative language. **THE PERFECT BOOK TO TALK ABOUT LOSS:** The perennial themes of grief, fear, and death are always relevant and classic discussion topics even in families not yet dealing with death. The perfect answer to kids' big questions about what happens when we die, this book will be a standard in every home library. **CREATIVE USE OF LANGUAGE:** The words in this book are incredibly special, with phrases that conjure how the dog sees the world. The enjoyable challenge of matching up "letsogoboy" to a walk or "pufftails" to rabbits will make

for meaningful discussions on a parent's lap or in a classroom reading circle. **TEACHES CHILDREN EMPATHY:** Reading this story from the dog's perspective is the perfect way for young readers to understand that the way another character thinks and perceives the world is different from their own experience. **A BEAUTIFUL DOG STORY:** Ideal for readers who love dogs, want dogs, or are going through a grieving process for their family dog, this book celebrates all that is most magical about these animals who are always by our side. **A COMFORTING MESSAGE:** It's rare for a book about death to extend

beyond the moment of dying. The continuation of the dog's story past this point makes it special and especially comforting. Perfect for: parents and caregivers, dog lovers, educators

When the man who broke her heart is in her tourist group, Lily Wilder, the daughter of a notorious treasure hunter, after the trip goes horribly and hilariously wrong, must decide whether she'll risk her life and heart on the adventure of a lifetime "Twelve-year-old Will Wilder is back to protect the town of Perilous Falls from another ancient evil--the fearsome demon, Amon"-- Long ago, a little girl named Laura Ingalls lived

in a little house in the Big Woods of Wisconsin with her Pa, her Ma, her sisters, Mary and Carrie, and their good old bulldog, Jack. Winter was just around the corner, and Laura worked hard to help make the little house ready for the cold days ahead. Soon there was frost on the windows and snow on the ground, but Laura and her folks were warm and cozy in their snug little house in the Big Woods. Laura Ingalls Wilder's Little House books have been cherished by generations of readers. Now for the first time, the youngest readers can share her adventures in these very special picture

books adapted from Laura Ingalls Wilder's beloved storybooks. Renée Graef's warm paintings, inspired by Garth Williams' classic Little House illustrations, bring Laura and her family lovingly to life. A gripping story of how an entire family, deeply enmeshed in Mormonism for thirty years, found their way out and found faith in Jesus Christ. For thirty years, Lynn Wilder, once a tenured faculty member at Brigham Young University, and her family lived in, loved, and promoted the Mormon Church. Then their son Micah, serving his Mormon mission in Florida, had a revelation: God

knew him personally. God loved him. And the Mormon Church did not offer the true gospel. Micah's conversion to Christ put the family in a tailspin. They wondered, Have we believed the wrong thing for decades? If we leave Mormonism, what does this mean for our safety, jobs, and relationships? Is Christianity all that different from Mormonism anyway? As Lynn tells her story of abandoning the deception of Mormonism to receive God's grace, she gives a rare look into Mormon culture, what it means to grow up Mormon, and why the contrasts between Mormonism and

Christianity make all the difference in the world. Whether you are in the Mormon Church, are curious about Mormonism, or simply are looking for a gripping story, *Unveiling Grace* will strengthen your faith in the true God who loves you no matter what. The *Laura Ingalls Wilder Companion* helps eager readers experience and discover Wilder's books like never before. Author Annette Whipple encourages children to engage in pioneer activities while thinking deeper about the stories and real-life circumstances of the Ingalls and Wilder families as portrayed in the nine Little House books. This

valuable companion provides brief introductions to each Little House book, chapter-by-chapter story guides, and additional information related to each of the books' content and history. "Fact or Fiction" sidebars tell the surprising truth about Laura Ingalls Wilder's writing, while 75 activities, crafts, and recipes encourage kids to "Live Like Laura" using easy-to-find supplies. Thoughtful questions help the reader develop appreciation and understanding for stories. Every aspiring adventurer will enjoy this walk alongside Laura from the big woods to the golden years.

First Rule of Prison, don't fall in love with the condemned Here on Xerlon, I've got mere weeks to convince a sexy, dangerous prisoner to get me pregnant or my dad loses his chance at a cure. All I have to do is be a surrogate for this convict and me and my dad will be taken care of the rest of our lives. Except, I'm finding it harder and harder to pretend. And when the criminal finds out the truth, it won't end well for either of us. Angel Condemned is a stand-alone, action-packed, sci-fi prison romance with a HEA and a scorching hot, alpha hero. Each book in this series has no cliffhangers

and features a new couple in the same world. Down on her luck and her dad's hospital bills mounting, Megan needs money fast and with jobs hard to find, she joins a surrogate program. What's the worst that could happen? Levx never wanted to come to earth during the evacuation of his planet. But their species are headed for extinction if they don't find mates among the humans. Three of his brothers have found females including producing offspring. Now their father has issued a command that all princes not bound must find a lover and reproduce. Fine. He'll buy a woman to carry his child and then wipe

his hands of this whole human mess. Megan finds herself falling for Levx but she never planned on surrendering anything more than her womb. But can she take a risk once she learns the truth of what he is? My name is Benjamin Dorsey. You know my mom and dad's story. You know Kylie's parents' story. You even know Kylie's story. You don't know mine, yet. You don't know what a broken heart is until you've loved someone your whole life, only to have her slip through your fingers because you waited too long. That's heartbreak. That's regret. And how do you live with that? How do you go through the

motions when she's there as a reminder of what you lost, of what you could have had but were too damn chicken to go after? I couldn't. So I left. That's right, I ran away. I found myself across the continent, playing minor league football. I mean, at least I still had football, right? Nope. That got taken away from me too. A career-ending injury left me down-and-out, scraping the bottom of the barrel, hating myself and hating life. And then I met Cheyenne Leveaux, my physical therapist, who became my one and only friend, the one bright light in the darkness of my messed up life. But of course nothing is

ever simple, or easy. Tragedy struck, and the rug was swept out from under me yet again, and this time the guilt, the doubt, the secrets, and the old heartbreak may threaten my one chance at true happiness, my one shot at my own happily ever after. For anyone who has ever wanted to step into the world of a favorite book, here is a pioneer pilgrimage, a tribute to Laura Ingalls Wilder, and a hilarious account of butter-churning obsession. Wendy McClure is on a quest to find the world of beloved Little House on the Prairie author Laura Ingalls Wilder—a fantastic realm of fiction, history, and places

she's never been to, yet somehow knows by heart. She retraces the pioneer journey of the Ingalls family—looking for the Big Woods among the medium trees in Wisconsin, wading in Plum Creek, and enduring a prairie hailstorm in South Dakota. She immerses herself in all things Little House, and explores the story from fact to fiction, and from the TV shows to the annual summer pageants in Laura's hometowns. Whether she's churning butter in her apartment or sitting in a replica log cabin, McClure is always in pursuit of "the Laura experience." Along the way she comes to understand how

Wilder's life and work have shaped our ideas about girlhood and the American West. The Wilder Life is a loving, irreverent, spirited tribute to a series of books that have inspired generations of American women. It is also an incredibly funny first-person account of obsessive reading, and a story about what happens when we reconnect with our childhood touchstones-and find that our old love has only deepened. Spanning three centuries of Brooklyn history from the colonial period to the present, A Covenant with Color exposes the intricate relations of dominance and

subordination that have long characterized the relative social positions of white and black Brooklynites. Craig Steven Wilder -- examining both quantitative and qualitative evidence and utilizing cutting-edge literature on race theory -- demonstrates how ideas of race were born, how they evolved, and how they were carried forth into contemporary society. In charting the social history of one of the nation's oldest urban locales, Wilder contends that power relations -- in all their complexity -- are the starting point for understanding Brooklyn's

turbulent racial dynamics. He spells out the workings of power -- its manipulation of resources, whether in the form of unfree labor, privileges of citizenship, better jobs, housing, government aid, or access to skilled trades. Wilder deploys an extraordinary spectrum of evidence to illustrate the mechanics of power that have kept African American Brooklynites in subordinate positions: from letters and diaries to family papers of Kings County's slaveholders, from tax records to the public archives of the Home Owners Loan Corporation. Wilder illustrates

his points through a variety of cases, including banking interests, the rise of Kings County's colonial elite, industrialization and slavery, race-based distribution of federal money in jobs, and mortgage loans during and after the Depression. He delves into the evolution of the Brooklyn ghetto, tracing how housing segregation corralled African Americans in Bedford-Stuyvesant. The book explores colonial enslavement, the rise of Jim Crow, labor discrimination and union exclusion, and educational inequality. Throughout, Wilder

uses Brooklyn as a lens through which to view larger issues of race and power on a national level. One of the few recent attempts to provide a comprehensive history of race relations in an American city, *A Covenant with Color* is a major contribution to urban history and the history of race and class in America. Darcie Wilder's literally show me a healthy person is a careful confession soaking in saltwater, a size B control top jet black pantyhose dragged over a skinned knee and slipped into unlaced doc martens. Blurring the lines of the written word, literally show me a healthy person is a

portrait of a young girl, or woman, or something; grappling with the immediate and seemingly endless urge to document and describe herself and the world around her. Dealing with the aftermath of her mother's death, her father's neglect, and the chaotic unspoken expectations around her, this novel is a beating heart at the intersection of literature, poetry, and the internet. Darcie Wilder elevates and applies direct pressure, but the wound never stops bleeding. Fiction, Pop Culture, Neo Noir, Detective Mystery Green Eggs and Ham meets Everyone Poops in

this laugh-out-loud story that asks—and answers—the burning question in every kid's life. Does a scarecrow have a butt? Yep, you stuff him with a straw one. And does a crayon have a butt? Nope, but it can surely draw one. This silly, funny, clever book will be the most quoted text in all of elementary school. Over the course of a long walk across a city, one curious kid needs to know: "Does it have a butt?" Everything from sheep to ghosts to dinosaurs is subjected to this all-important question, and Dad is a never-ending source of answers. On a laugh-out-loud father-child ramble, we come to see that

every butt, from a bullfrog's to a zombie's, has its own distinctive, and distinctively hilarious, quality. LAUGH-OUT-LOUD FUNNY: It's impossible to find a kid who doesn't giggle at the word "butt." The repetition of the word, the varied assortment of butts, and the clever rhymes make this a book that both parents and children will return to over and over again. A SNEAKY WAY TO TEACH ABOUT CONTEXT: The book isn't simply a repetition of one joke or word. Instead, it offers a crafty way of talking about what things mean in different contexts. SILLY AND SWEET, NOT GROSS: Butt

jokes can potentially cross a line and become offensive or insensitive, but the tone and choices throughout this book are sweet and innocent, making it a unique, accessible option for parents and educators who want to normalize the asking of difficult questions. COUNT THE BUTTS! This book will change how you see the world: Not only will you start wondering about all inanimate objects' butts, you'll start seeing them everywhere! There are nearly 200 butts in the illustrations that aren't even mentioned in the text. Keen-eyed young readers will delight in the most hilarious seek-and-

find they could ever imagine! Perfect for: • Parents • Grandparents • Educators and librarians • Fans of funny books

"Exquisitely drawn characters imbue Lang's unconventional plot with verisimilitude and heart, inspiring readers to ponder whether the world is stranger and more beautiful than it appears.

Effervescent, ethereal, and suffused with wonder." — Kirkus (starred review)

Weekly Ohioana Book Award finalist Ruth Emmie Lang returns with a new cast of ordinary characters with extraordinary abilities in *The Wilderwomen*. Five years ago, Nora Wilder disappeared. The older of her two daughters, Zadie, should have seen it coming, because she can literally see things coming. But not even her psychic abilities were able to prevent their mother from vanishing one morning. Zadie's estranged younger sister, Finn, can't see into the future, but she has an uncannily good memory, so good that she remembers not only her own memories, but the echoes of memories

other people have left behind. On the afternoon of her graduation party, Finn is seized by an "echo" more powerful than anything she's experienced before: a woman singing a song she recognizes, a song about a bird... When Finn wakes up alone in an aviary with no idea of how she got there, she realizes who the memory belongs to: Nora. Now, it's up to Finn to convince her sister that not only is their mom still out there, but that she wants to be found. Against Zadie's better judgement, she and Finn hit the highway, using Finn's echoes to retrace Nora's footsteps and

uncover the answer to the question that has been haunting them for years: Why did she leave? But the more time Finn spends in their mother's past, the harder it is for her to return to the present, to return to herself. As Zadie feels her sister start to slip away, she will have to decide what lengths she is willing to go to find their mother, knowing that if she chooses wrong, she could lose them both for good. Alec Wilder wrote songs and lyrics of unsurpassed beauty and originality, and his work won the respect and admiration of such important musical figures as Frank Sinatra, Peggy Lee, Mitch Miller, Gunther Schuller,

and many others. Yet Wilder seemed almost to court obscurity. Both in the music he composed and in the way he lived his life, Wilder valued the unique and eccentric over the established and easily acceptable. And though he authored the definitive American Popular Song--which critics praised as "singular" (Studs Terkel), "pioneering" (Whitney Balliett), "rewarding" (Milton Babbitt), and "a joy to anyone who really cares about American popular music" (Max Morath)--his own contribution to that music has remained, until now, too little known and far too

little appreciated. Desmond Stone's engaging and lively biography brings Alec Wilder's life and music into the spotlight where it belongs. Ranging from Wilder's childhood in Rochester, New York, to his rise as a major writer of popular songs in the 1940s, to his relationships with Frank Sinatra and the cabaret singer Mabel Mercer, Stone gives us rich insight into the creative process and profound influence of this highly unorthodox composer. We see the impulses and musical concerns that led to such standards as "I'll Be Around" and "It's So Peaceful in the Country." We also get an inside view

of how he wrote his monumental American Popular Song, which remains the most significant study of America's great songwriters. More important, we get a vivid sense of a haunting, incorruptible melodist whose unique personality was mirrored in his music. Man and composer dared to be different. When Wilder in the late 1930s wrote his famous Octets, the music world did not know what to make of these irreverent, highly original pieces. Yet they had a seminal influence on jazz chamber music in America. Wilder would go on to compose hundreds of instrumental numbers. Whether

he was writing concert pieces for an unprecedented and highly unusual group of instruments, or mixing jazz, classical, and popular idioms in a single song, or dashing off a sonata for a friend, Wilder followed the dictates of his own creativity rather than the expectations of the musical establishment. Such independence and unpredictability earned him the hostility of many critics but the enduring respect of the musicians he wrote for. Here then is a fascinating private portrait of a man who lived a nomad's life, who loved riding trains so much he kept a timetable in his

pocket at all times, a man whose only home was a small room he maintained at the Algonquin Hotel in Manhattan (where he often held court in the lobby), a man with a serious drinking problem as well as the kindest and most generous of friends. Essential reading for anyone interested in American popular music, Alec Wilder in Spite of Himself provides a much needed account of this complex, colorful, and highly original life. The difficult story of what follows a terrible accident in Anything That Happens has me thinking about the word aftermath, how it means not only dire consequences but

second-growth, as new grass after a harvest. Cheryl Wilder's poems are almost shatteringly direct: they explore guilt and suffering so cleanly and so precisely that every detail testifies, and mercy is ever possible. This is a brave and honorable book. - Nancy Eimers Do you need to learn about cloud computing architecture with Microsoft's Azure quickly? Read this book! I was only trying to find a sexy alien to

date. Was that wrong? The idea of a hunk with extra arms or tail made me warm all over even on the coldest nights on this miserable planet. It was supposed to be a speed-dating-universe event. But instead of snuggling with a toasty alien in my bed, I woke up in a jail cell. My cellmate was hunky all right, except he acted like he hated me. Add in that our captors said we must mate or be beaten, and the idea of suddenly forced alien exploration didn't sound so good. Our lives are defined by moments, especially the ones we never see coming. For me, that moment came when I was given the opportunity to take from those who'd taken from me. I became a hitman-killing mob bosses, drug lords and

everything in between. With judges in their pockets, these men were untouchable by everyone-except me. With every hit, my plan was always the same: Day one- receive the target. Day two- acquire their location. Day three- plan the kill. Day four- complete the hit. On day three of my latest assignment, everything changed. The moment I saw her, I knew she was different from the others. Madison Brooks wasn't a hardened criminal with blood on her hands. She was innocent, untouched by my world, and undeniably beautiful. On day three, I couldn't get

her out of my head. I kept imagining what it would be like to hold her, touch her, and claim her as mine. On day three, I found myself questioning whether or not I could complete my assignment. In fact, I found myself questioning everything. Many readers were introduced to the sexy, brooding recluse, Jasper Nichols, in Murphy: Satan's Fury- Memphis. Seven Wonders series will embrace this first epic adventure in a rollicking new series by a New York Times bestselling author. Will Wilder is a mischievous, headstrong twelve-year-old with an otherworldly gift—he alone can see the nefarious creatures encroaching on Perilous Falls. For nearly a century, a sacred relic has protected his hometown from the raging waters surrounding it. But when Will “borrows” the relic for his own purposes, he accidentally unleashes an ancient evil. As boats sink and hideous creatures crawl from the

rising waters, Will must set things right before it is too late. With the help of his sweet (if lethal) Great Aunt Lucille, the curator of a museum of powerful artifacts, Will proves that the actions of one twelve-year-old boy can change the world. about three best friends living in quarantine at their island boarding school, and the lengths they go to uncover the truth of their confinement when one disappears. This fresh debut is a mind-bending novel unlike anything you've read before. It's been eighteen months since the Raxter School for Girls was put under quarantine. Since the Tox hit and pulled Hetty's life out from under her. It started slow. First the teachers died one by one. Then it began to infect the students, turning their bodies strange and foreign. Now, cut off from the rest of the world and left to fend for themselves on their

island home, the girls don't dare wander outside the school's fence, where the Tox has made the woods wild and dangerous. They wait for the cure they were promised as the Tox seeps into everything. But when Byatt goes missing, Hetty will do anything to find her, even if it means breaking quarantine and braving the horrors that lie beyond the fence. And when she does, Hetty learns that there's more to their story, to their life at Raxter, than she could have ever thought true. And don't miss Rory Power's second novel, *Burn Our Bodies Down!* Praise for *Wilder Girls*: 4 STARRED

Charlie Blakeman has just published his first novel, to almost no acclaim.

He's living on New York's Washington Square, struggling with his follow-up, and floundering within his pseudointellectual coterie when his college love, Sophie Wilder, returns to his life. Sophie is also struggling, though Charlie isn't sure why, since they've barely spoke, after falling out a decade before. Now Sophie begins to tell Charlie the story of her life since then, particularly the story of the days she spent taking care of a dying man with his own terrible past and of the difficult decision he forced her to make. When she disappears once again, Charlie sets out to discover what happened to

Sophie Wilder. Christopher Beha's debut novel explores faith, love, friendship, and, ultimately, the redemptive power of storytelling. In Xerlon Prison, there are no good guys...and certainly no angels Aliens exist and humans are on the endangered species list.
