**Globalization, Education
 and Social Justice** Apr 03
 2020 Globalization, Education
 and Social Justice, which is the
 tenth volume in the 12-volume
 book series Globalisation,
 Comparative Education and
 Policy Research, presents up-
 to-date scholarly research on
 major discourses concerning
 global trends in education,
 social justice and policy

research. It provides an easily
 accessible, practical yet
 scholarly source of information
 about the international concern
 in the field of social justice,
 globalisation, and policy
 research. Above all, the book
 offers the latest findings to the
 critical issues in education and
 social justice globally. It is a
 sourcebook of ideas for
 researchers, practitioners and
 policy makers in education,
 globalisation and social justice
 education reforms around the
 world. It offers a timely
 overview of current issues in
 social justice affecting
 education policy research in
 the global culture. It provides
 directions in education, and
 policy research, relevant to
 transformational educational
 reforms in the 21st century.
 The book critically examines
 the overall interplay between
 globalisation, education
 reforms, and social justice. It
 draws upon recent studies in
 the areas of globalisation,
 social justice education reforms
 and the role of the State. It
 explores conceptual
 frameworks and
 methodological approaches
 applicable in the research
 covering the State,
 globalisation, equity,
 education, and social justice. It
 demonstrates the neo-liberal
 ideological imperatives of
 education and policy reforms,
 and illustrates the way the
 relationship between the State
 and education policy affects
 current models and trends in
 education reforms for social
 justice and schooling globally.
 Various book chapters critique
 the dominant discourses and
 debates pertaining to the

politics of social justice and education globally and the newly constructed and re-invented models of neo-liberal ideology in education and policy reforms. Using a number of diverse paradigms in comparative education research, ranging from critical theory to post-structuralist discourses, the authors, by focusing on globalisation, social justice and democracy, attempt to examine critically both the reasons and outcomes of education reforms and policy change for social justice. The volume offers a more informed critique on the Western-driven models of education reforms and implications for social justice. The book also draws upon recent studies in the areas of equity, cultural capital and dominant ideologies in education. The general intention is to make Globalization, Education and Social Justice available to a broad spectrum of users among policy-makers, academics, graduate students, education policy researchers, administrators, and practitioners in the education and related professions.
