She fled the war zone for the hope of quiet and safety in the north. There she founded Acorn, a peaceful community based on a religion of her creation, called Earthseed, whose central tenet is that God is change. Five years later, Lauren has married a doctor and given birth to a daughter. Acorn is beginning to thrive. But outside the tranquil group's walls, America is

changing for the worse. Presidential candidate Andrew Steele Jarret wins national fame by preaching a return to the values of the American golden age. To his marauding followers, who are identified by their crosses and black robes, this is a call to arms to end religious tolerance and racial equality—a brutal doctrine they enforce by machine gun. And as this band of violent extremists sets its deadly sights on Earthseed, Acorn is plunged into a harrowing fight for its very survival. Taking its place alongside Margaret Atwood's *The Handmaid's Tale*, Butler's eerily prophetic novel offers a terrifying vision of our potential future, but also one of hope. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate. In a story set against the backdrop of Dublin in 1915, two boys who meet at the local swimming hole plan to swim to an island in Dublin Bay the following Easter, but their plans coincide with the Easter uprising—a historic rebellion that changes their li

The new Pelican Shakespeare series incorporates the more than thirty years of Shakespeare scholarship undertaken since the acclaimed original series, edited by Alfred Harbage, appeared between 1956 and 1967. The general editors of the new series of forty volumes—the renowned Shakespeareans Stephen Orgel of Stanford University and A. R. Braunmuller of UCLA—have assembled a team of eminent scholars who have, along with the general editors themselves,

prepared new introductions and notes to all of Shakespeare's plays and poems. Redesigned in an easy-to-read format that preserves the favorite features of the original, including an essay on the theatrical world of Shakespeare, an introduction to the individual play, and a note on the text used. The new Pelican Shakespeare will be an excellent resource for students, teachers, and theatre professionals well into the twenty first century. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Dr. Silvester Gardiner was an extraordinary individual. In telling his story, Coolidge traces the early settlement of Maine, from the first settlers struggling to survive bitter winters in crude huts, to the gradual establishment of trade, sawmills, gristmills, and other commerce, and then attempts to increase the population with immigrants and instill civilization through the firm hands of religion, government, and Dr. Gardiner. Professor Gilpin uses history, sociology, and economic theory to identify the forces causing change in the world order. Detroit, Michigan - 1842 After the devastating trauma she suffered in Olivia, Mourning and finally knowing the reality with which she must contend, Olivia strives to rebuild herself - emotionally, socially, and financially. She starts a new life in Detroit, the young and exciting city on a river where she has come to feel at home. New friends help the healing

process, while she continues her search for the two people she loves, who have disappeared from her life. She finds the greatest solace in helping fugitive slaves escape over the river to Canada. She believes, as one of her new friends says, "In this time and place it is the most worthy thing a person can do." Olivia remains a compelling protagonist on a journey to find a way to do the right thing in a world in which so much is wrong. What is death all about? What is life all about? So wonders thirteen-year-old Elli Friedmann as she fights for her life in a Nazi concentration camp. A remarkable memoir, *I Have Lived a Thousand Years* is a story of cruelty and suffering, but at the same time a story of hope, faith, perseverance, and love. It wasn't long ago that Elli led a normal life that included family, friends, school, and thoughts about boys. A life in which Elli could lie and daydream for hours that she was a beautiful and elegant celebrated poet. But these adolescent daydreams quickly darken in March 1944, when the Nazis invade Hungary. First Elli can no longer attend school, have possessions, or talk to her neighbors. Then she and her family are forced to leave their house behind to move into a crowded ghetto, where privacy becomes a luxury of the past and food becomes a scarcity. Her strong will and faith allow Elli to manage and adjust, but what she doesn't know is that this is only the beginning. The worst is yet to come... From the New York Times bestselling author

of Parable of the Sower and MacArthur “Genius” Grant, Nebula, and Hugo award winner The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery and explores the impacts of racism, sexism, and white supremacy then and now. “I lost an arm on my last trip home. My left arm.” Dana’s torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner’s plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead’s *The Underground Railroad* and Ta-Nehisi Coates’s *The Water Dancer*, Butler takes one of speculative fiction’s oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. “Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise” (New York Times). “Reading Octavia Butler taught me to dream big, and I think it’s absolutely

necessary that everybody have that freedom and that willingness to dream.” —N. K. Jemisin The series adaptation from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin. Olivia Black’s latest work is destined to become a new children’s classic. Along the lines of *Harry Potter* and *Charlie and the Chocolate Factory*, the first book in this series follows three very special children as they each learn to face their demons as they fight the battle of their lives to preserve good, despite a powerful and growing force of evil. An important foundation is formed as the transition of power from the old guard to the new is established. Join Jack, Chance, and Ashley in their adventures with Grandpa Hugo, Uncle Nicholas, Mr. Hecht, and the Cinnamon Men as they battle the evil soldiers of Krampus in this fun and memorable holiday story. An alien race calls on one woman to revive mankind after Earth’s apocalypse in this science fiction classic from the award-winning author of *Parable of the Sower*. Lilith Iyapo has just lost her husband and son when atomic fire consumes Earth—the last stage of the planet’s final war. Hundreds of

years later Lilith awakes, deep in the hold of a massive alien spacecraft piloted by the Oankali—who arrived just in time to save humanity from extinction. They have kept Lilith and other survivors asleep for centuries, as they learned whatever they could about Earth. Now it is time for Lilith to lead them back to her home world, but life among the Oankali on the newly resettled planet will be nothing like it was before. The Oankali survive by genetically merging with primitive civilizations—whether their new hosts like it or not. For the first time since the nuclear holocaust, Earth will be inhabited. Grass will grow, animals will run, and people will learn to survive the planet’s untamed wilderness. But their children will not be human. Not exactly. Featuring strong and compelling characters and exploring complex themes of gender and species, Octavia E. Butler presents a powerful, postapocalyptic interplanetary epic, as well as a ray of hope for humanity. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author’s estate. A New York Times Notable Book: In 2025, with the world descending into madness and anarchy, one woman begins a fateful journey toward a better future. “A stunner.” —Flea, musician and actor, *The Wall Street Journal* Lauren Olamina and her family live in one of the only safe neighborhoods remaining on the outskirts of Los Angeles. Behind the walls of their

defended enclave, Lauren's father, a preacher, and a handful of other citizens try to salvage what remains of a culture that has been destroyed by drugs, disease, war, and chronic water shortages. While her father tries to lead people on the righteous path, Lauren struggles with hyperempathy, a condition that makes her extraordinarily sensitive to the pain of others. When fire destroys their compound, Lauren's family is killed and she is forced out into a world that is fraught with danger. With a handful of other refugees, Lauren must make her way north to safety, along the way conceiving a revolutionary idea that may mean salvation for all mankind. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate. Winner of the Los Angeles Times Book Prize in History A bold and searing investigation into the role of white women in the American slave economy "Compelling."—Renee Graham, Boston Globe "Stunning."—Rebecca Onion, Slate "Makes a vital contribution to our understanding of our past and present."—Parul Sehgal, New York Times Bridging women's history, the history of the South, and African American history, this book makes a bold argument about the role of white women in American slavery. Historian Stephanie E. Jones-Rogers draws on a variety of sources to show that slave-owning women were sophisticated economic actors who directly engaged in and

benefited from the South's slave market. Because women typically inherited more slaves than land, enslaved people were often their primary source of wealth. Not only did white women often refuse to cede ownership of their slaves to their husbands, they employed management techniques that were as effective and brutal as those used by slave-owning men. White women actively participated in the slave market, profited from it, and used it for economic and social empowerment. By examining the economically entangled lives of enslaved people and slave-owning women, Jones-Rogers presents a narrative that forces us to rethink the economics and social conventions of slaveholding America. Lex grew up in the orphanage, alone, and now is training to be a Special Op so she can finally destroy the rebels with her own hands. She needs no one. Livia lives miles above everything on a floating island in the city of Indra. She is training too, but for a life that she doesn't want. She wants to be free, to finally leave her floating island, and to run with her beloved horse until she can't run any longer. And then there's Kane--Lex's only friend. When she finds that Kane is in danger, she doesn't hesitate to leave her post and blast her way to the top of Indra to save him. She just needs to get one stubborn, unexpectedly clever airgirl to tell her where he is first. The Balkan Trilogy is the story of a marriage and of a war, a vast, teeming, and complex

masterpiece in which Olivia Manning brings the uncertainty and adventure of civilian existence under political and military siege to vibrant life. Manning's focus is not the battlefield but the café and kitchen, the bedroom and street, the fabric of the everyday world that has been irrevocably changed by war, yet remains unchanged. At the heart of the trilogy are newlyweds Guy and Harriet Pringle, who arrive in Bucharest—the so-called Paris of the East—in the fall of 1939, just weeks after the German invasion of Poland. Guy, an Englishman teaching at the university, is as wantonly gregarious as his wife is introverted, and Harriet is shocked to discover that she must share her adored husband with a wide circle of friends and acquaintances. Other surprises follow: Romania joins the Axis, and before long German soldiers overrun the capital. The Pringles flee south to Greece, part of a group of refugees made up of White Russians, journalists, con artists, and dignitaries. In Athens, however, the couple will face a new challenge of their own, as great in its way as the still-expanding theater of war. "The most thought-provoking and refreshing work on Bosnia and the former Yugoslavia in a long time. It is certainly an immense contribution to the broadening schools within international relations." Times Higher Education (THE). Written in both autoethnographical and narrative form, *The Politics of Exile* offers unique insight into

the complex encounter of researcher with research subject in the context of the Bosnian War and its aftermath. Exploring themes of personal and civilizational guilt, of displaced and fractured identity, of secrets and subterfuge, of love and alienation, of moral choice and the impossibility of ethics, this work challenges us to recognise pure narrative as an accepted form of writing in international relations. The author brings theory to life and gives corporeal reality to a wide range of concepts in international relations, including an exploration of the ways in which young academics are initiated into a culture where the volume of research production is more valuable than its content, and where success is marked not by intellectual innovation, but by conformity to theoretical expectations in research and teaching. This engaging work will be essential reading for all students and scholars of international relations and global politics. Enter the vivid and cinematic world of Faloiv in the first book of this dazzling YA sci-fi/fantasy series, perfect for fans of *Carve the Mark*, *Red Rising*, and *These Broken Stars*. Octavia has always dreamed of becoming a whitecoat, one of the prestigious N'Terra scientists who study the natural wonders of Faloiv. So when the once-secretive labs are suddenly opened to students, she leaps at the chance to see what happens behind their closed doors. However, she quickly discovers that all is not what it

seems on Faloiv, and the experiments the whitecoats have been doing run the risk of upsetting the humans' fragile peace with the Faloi, Faloiv's indigenous people. As secret after disturbing secret comes to light, Octavia finds herself on a collision course with the charismatic and extremist new leader of N'Terra's ruling council. But by uncovering the mysteries behind the history she's been taught, the science she's lived by, and the truth about her family, she threatens to be the catalyst for an all-out war. For the British Empire and its allies of the Great War, 1917 was a year marked by crises. But here and there glimmers of light pierced the gloom. Soldiers began solving the problems posed by trench warfare. The dominions asserted themselves in the councils of imperial power. And the US finally entered the war. This book examines the British imperial war effort during the most pivotal and dynamic twelve months of the war. Written by internationally recognized historians, its chapters explore military, diplomatic, and domestic aspects of how the empire prosecuted the war. Their rich, nuanced analysis transcends narrow, national viewpoints to provide a multi-faceted perspective of events that laid the groundwork for victory. Anya is preoccupied with what she feels is a relationship on the verge; unequal, precarious. Luke, reserved, stoic, gives away nothing. As the sun sets one evening, he proposes, and they return to London engaged. But planning a wedding does little to settle Anya's unease. As a child, she escaped from Sarajevo, and the idea of security is as alien now as it was then. When social convention forces Anya to return, she begins to change. The past she sought to contain for as long as she can remember resurfaces, and the hot summer builds to a startling climax. Lean, sly and unsettling, *Asylum Road* is about the many borders governing our lives: between men and women, assimilation and otherness, nations, families, order and chaos. What happens, and who do we become, when they break down? To the River is the story of the Ouse, the Sussex river in which Virginia Woolf drowned in 1941. One idyllic, midsummer week over sixty years later, Olivia Laing walked. Woolf's river from source to sea. The result is a passionate investigation into

how history resides in a landscape and how ghosts never quite leave the place they love. "Astute and consistently surprising critic" (NPR) Olivia Laing investigates the body and its discontents through the great freedom movements of the twentieth century. The body is a source of pleasure and of pain, at once hopelessly vulnerable and radiant with power. In her ambitious, brilliant sixth book, Olivia Laing charts an electrifying course through the long struggle for bodily freedom, using the life of the renegade psychoanalyst Wilhelm Reich to explore gay rights and sexual liberation, feminism, and the civil rights movement. Drawing on her own experiences in protest and alternative medicine, and traveling from Weimar Berlin to the prisons of McCarthy-era America, Laing grapples with some of the most significant and complicated figures of the past century—among them Nina Simone, Christopher Isherwood, Andrea Dworkin, Sigmund Freud, Susan Sontag, and Malcolm X. Despite its many burdens, the body remains a source of power, even in an era as technologized and automated as our own. Arriving at a moment in which basic bodily rights are once again imperiled, *Everybody* is an investigation into the forces arranged against freedom and a celebration of how ordinary human bodies can resist oppression and reshape the world. Jerusalem in 1945 is a city in flux: refugees from the war in Europe fill its streets and cafés, the British colonial

mandate is coming to an end, and tensions are on the rise between the Arab and Jewish populations. Felix Latimer, a recently orphaned teenager, arrives in Jerusalem from Baghdad, biding time until he can secure passage to England. Adrift and deeply lonely, Felix has no choice but to room in a boardinghouse run by Miss Bohun, a relative he has never met. Miss Bohun is a holy terror, a cheerless miser who proclaims the ideals of a fundamentalist group known as the Ever-Readies—joy, charity, and love—even as she makes life a misery for her boarders. Then Mrs. Ellis, a fascinating young widow, moves into the house and disrupts its dreary routine for good. Olivia Manning's great subject is the lives of ordinary people caught up in history. Here, as in her panoramic depiction of World War II, *The Balkan Trilogy*, she offers a rich and psychologically nuanced story of life on the precipice, and she tells it with equal parts compassion, skepticism, and humor. Drawing on archaeological research, an expert account of the famous historical battle confirms many details recounted in Homer's epic account, from Troy's alliance with the Hittite Empire to the significant fire at the end of the twelfth century and facts. Understanding how a multicellular animal develops from a single cell (the fertilized egg) poses one of the greatest challenges in biology today. Development from egg to adult involves the sequential expression of virtually the whole of an organism's genetic

instructions both in the mother as she lays down developmental cues in the egg, and in the embryo itself. Most of our present information on the role of genes in development comes from the invertebrate fruit fly, *Drosophila*. The two authors of this text (amongst the foremost authorities in the world) follow the developmental process from fertilization through the primitive structural development of the body plan of the fly after cleavage into the differentiation of the variety of tissues, organs and body parts that together define the fly. The developmental processes are fully explained throughout the text in the modern language of molecular biology and genetics. This text represents the vital synthesis of the subject that many have been waiting for and it will enable many specific courses in developmental biology and molecular genetics to focus on it. It will appeal to 2nd and 3rd year students in these disciplines as well as in biochemistry, neurobiology and zoology. It will also have widespread appeal among researchers. Authored by one of the foremost authorities in the world. A unique synthesis of the developmental cycle of *Drosophila* - our major source of information on the role of genes in development. Designed to provide the basis of new courses in developmental biology and molecular genetics at senior undergraduate level. A lucid explanation in the modern language of the science. Retells legends of the heroes of the

Trojan War, which began with Paris of Troy's abduction of Helen, wife of Menelaus, lord of Greece. Poetry. Latinx Studies. Women's Studies. Translated by Olivia Lott. Lucía Estrada's *KATABASIS*, winner of the 2017 Bogotá Poetry Prize, is the first full collection of poetry by a Colombian woman to be translated into English. It takes its title from the Greek word for descent, referring to both classical knowledge quests into the underworld by epic heroes and, more broadly, to any journey into madness, darkness, the unknown. A three-part plunge into the darkness of the world, and of the mind, Estrada's prose poems depict the night, the subconscious, and the surreal. Olivia Lott's seminal translation tracks the mercurial tempos and intertextualities of the poems, as it captures the double valence of political dissent and katabatic descent. This book reminds us that darkness is a space of enlightenment. *3,000 Years of War and Peace in the Maya Lowlands* presents the cutting-edge research of 25 authors in the fields of archaeology, biological anthropology, art history, ethnohistory, and epigraphy. Together, they explore issues central to ancient Maya identity, political history, and warfare. The Maya lowlands of Guatemala, Belize, and southeast Mexico have witnessed human occupation for at least 11,000 years, and settled life reliant on agriculture began some 3,100 years ago. From the earliest times, Maya communities expressed their shifting

identities through pottery, architecture, stone tools, and other items of material culture. Although it is tempting to think of the Maya as a single unified culture, they were anything but homogeneous, and differences in identity could be expressed through violence. *3,000 Years of War and Peace in the Maya Lowlands* explores the formation of identity, its relationship to politics, and its manifestation in warfare from the earliest pottery-making villages through the late colonial period by studying the material remains and written texts of the Maya. This volume is an invaluable reference for students and scholars of the ancient Maya, including archaeologists, art historians, and anthropologists. Olivia Twist is an innovative reimagining of Charles Dickens' classic tale *Oliver Twist*, in which Olivia was forced to live as a boy for her own safety until she was rescued from the streets. Now eighteen, Olivia finds herself at a crossroads: revealed secrets threaten to destroy the "proper" life she has built for herself, while newfound feelings for an arrogant young man she shouldn't like could derail her carefully laid plans for the future. Olivia Brownlow is no damsel in distress. Born in a workhouse and raised as a boy among thieving London street gangs, she is as tough and cunning as they come. When she is taken in by her uncle after a caper gone wrong, her life goes from fighting and stealing on the streets to lavish dinners and soirees as a debutante in high

society. But she can't seem to escape her past ... or forget the teeming slums where children just like her still scabble to survive. Jack MacCarron rose from his place in London's East End to become the adopted "nephew" of a society matron. Little does society know that MacCarron is a false name for a boy once known among London gangs as the Artful Dodger, and that he and his "aunt" are robbing them blind every chance they get. When Jack encounters Olivia Brownlow in places he least expects, his curiosity is piqued. Why is a society girl helping a bunch of homeless orphan thieves? Even more intriguing, why does she remind him so much of someone he once knew? Jack finds himself wondering if going legit and risking it all might be worth it for love. The follow-up to *Kindred*, the #1 bestseller, comes *Octavia E. Butler's groundbreaking dystopian novel In this graphic novel adaptation of Octavia E. Butler's Parable of the Sower*, by Damian Duffy and John Jennings, the award-winning team behind the #1 bestseller *Kindred: A Graphic Novel Adaptation*, the author portrays a searing vision of America's future. In the year 2024, the country is marred by unattended environmental and economic crises that lead to social chaos. Lauren Olamina, a preacher's daughter living in Los Angeles, is protected from danger by the walls of her gated community. However, in a night of fire and death, what begins as a fight for survival soon leads to something much

more: a startling vision of human destiny ... and the birth of a new faith. "Allegra Hyde's seductive first novel tackles the big stuff of climate change and the more intimate matter of heartbreak with grace. Indeed, Eleutheria bravely braids these together, the story of a lost soul moving through the world we're rapidly losing."

—Rumaan Alam, author of *Leave the World Behind*

Willa Marks has spent her whole life choosing hope. She chooses hope over her parents' paranoid conspiracy theories, over her dead-end job, over the rising ocean levels. And when she meets Sylvia Gill, renowned Harvard professor, she feels she's found the justification of that hope. Sylvia is the woman-in-black: the only person smart and sharp enough to compel the world to action. But when Sylvia betrays her, Willa fears she has lost hope forever. And then she finds a book in Sylvia's library: a guide to fighting climate change called *Living the Solution*. Inspired by its message and with nothing to lose, Willa flies to the island of Eleutheria in the Bahamas to join the author and his group of ecowarriors at Camp Hope. Upon arrival, things are not what she expected. The group's leader, author Roy Adams, is missing, and the compound's public launch is delayed. With time running out, Willa will stop at nothing to realize Camp Hope's mission—but at what cost? A VINTAGE ORIGINAL Auggie Pullman, who was born with extreme facial abnormalities, goes from being home-schooled to entering fifth grade at a

private middle school in Manhattan, which entails enduring the taunting and fear of his classmates. Presents a fictional account of the Gallic War which occurred from 58 to 51 B.C., narrated by a fictitious Roman soldier, providing insight to Roman civilization in the time of Julius Caesar. One of the most misunderstood periods in American history, Reconstruction remains relevant today because its central issue -- the role of the federal government in protecting citizens' rights and promoting economic and racial justice in a heterogeneous society -- is still unresolved. *America's Reconstruction* examines the origins of this crucial time, explores how black and white Southerners responded to the abolition of slavery, traces the political disputes between Congress and President Andrew Johnson, and analyzes the policies of the Reconstruction governments and the reasons for their demise. *America's Reconstruction* was published in conjunction with a major exhibition on the era produced by the Valentine Museum in Richmond, Virginia, and the Virginia Historical Society. The exhibit included a remarkable collection of engravings from *Harper's Weekly*, lithographs, and political cartoons, as well as objects such as sculptures, rifles, flags, quilts, and other artifacts. An important tool for deepening the experience of those who visited the exhibit, *America's Reconstruction* also makes this rich assemblage of information and period art available to the wider audience

of people unable to see the exhibit in its host cities. A work that stands along as well as in proud accompaniment to the temporary collection, it will appeal to general readers and assist instructors of both new and seasoned students of the Civil War and its tumultuous aftermath.
