A love story meant for all generations especially the youths, this book contains comedy, romance and tragedy. Firstly the readers would feel electrified and enthusiastic before that they would laugh and at last I bet they would cry. The story is based on the fact how our society react to love and how the concept love is ill treated. Sam who wanted to become a writer and Saba who wanted to become a doctor both from a village met each other when they were students and eventually fell into love. Sam, knowing the consequences of loving someone took it a challenge. He believed he would change the perceptions of the

conservative people who hate love. He promised to turn around the lives of one another to set an example. But Sam is a dull student in science subjects and Saba very brilliant. They gave lessons to each other days and nights and even exchanged high class romance. Their aims got changed, Saba who wanted to become a doctor aspires to become a writer and Sam who was dull in science subjects is now a doctor of 35 but is never happy with his life, he is alone. Read and find out.

In this book, four new sections have been added in this edition containing multiple choice questions (MCQs), problem oriented case studies, very short question with answer and Biochemistry course curriculum of different Universities. MCQ will definitely be useful to the students appearing for PG entrance examinations later. Problems relating to biochemical case studies have recently been introduced in question papers of many medical universities and in this context, these will be of immense help to the students for diagnostics analysis. In this new edition very recent questions have been incorporated, some short questions with answers and new case history are added. Guide line of Medical Council of India (MCI) for Biochemistry course curriculum is appended, so the students will be aware about the must know and desirable to know area in the subject. Through separate chapters have been earmarked for paper I & II in the courses of study of different Universities, sometimes the question setters do not strictly adhere to the instructions laid down in it, while setting questions. Although it happens occasionally the students have to bear this anomaly as there is no remedy for it. Competition Science Vision

With Sithannan's book 'Police Investigation-Powers, Tactics and Techniques' 4th Edition 2022, every Police Officer will be able to do a comprehensive investigation even if he/ she just follow the checklists given. The book is written in simple language, which can be easily understood by all Police Officers and will serve as a valuable tool/guide for every officer who has to investigate a crime, participate in the All India Police Duty Meet etc. This is a more exhaustive treatise than his initial one, prepared when he was working in the Police Training College and which is still used by Investigating Officers all over the state of Tamil Nadu. In his present work titled 'Police Investigation: Powers, Tactics and Techniques', the author has meticulously catalogued the tools available to a police officer to become a successful investigator. He has carefully listed the duties of Police Officers at various stages of the investigation and the legal and statutory supports officially available to an investigating officer. The book contains 25 chapters and 4 annexures. In all the chapters, the author describes the problems at hand in elaborate detail, supported by relevant statistical and legal data, drawn from authentic sources. The first chapter includes a

discussion on the development of settled society, the origin of law in society and the emergence of military and police in developing societies. In the following chapters, the author has given an exhaustive account of the role and powers of Police in the registration of offences and taking up of the investigation. He has also discussed problems encountered by a Police Officer during the investigation, the trial till the judgement. The book dexterously deals with problems such as the jurisdiction of a Police Officer, the dying declaration of victims, the conducting of inquest, arrest, interrogation and confession of the accused, etc. Apart from Police Officers, Advocates, Law and Judicial Officers would also find this book very useful as a reference book. The reference to judgements pertaining to a host of criminal cases during the period 1965-2018 merit careful study by the guardians of Law. The checklist provided at the end of each chapter can serve as a ready-reckoner to the Police Officers at various stages of the investigation. A trainee and a veteran equally will find this book a useful aid. To cite an example, under chapter 14, "Arrest", he has cited 37 landmark judgements. By reading these fourteen pages alone one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom, as he has drawn valuable and authenticated data from various enactments, official documents, court judgements and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused and the natural processes of the long arm of the law. That the Author's utopian ideal of no innocent person should be punished and no offender should go unpunished

can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation. *Pharmacology Made Easy* may be a boon for Medical PG Entrance aspirants and Medical/Dental/Nursing/Veterinary students. 1000 Multiple Choice Questions (MCQ) are listed at the end. *Competition Science Vision* (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. NIMHANS Pattern Questions are provided with utmost clarity. 5,200 NIMHANS Pattern Previous Exam Questions thoroughly revised and updated from 19th Edition of Harrison's Internal Medicine and 26th Edition of Bailey & Love's Surgery. MCQs are arranged year-wise in each subject from 1998-2017. Very thoroughly verified answers from super-specialty subject experts, faculty members of neuro institutes and PG aspirants. Explanations are provided precisely in bullet and tabulated form incorporating only high yield and relevant facts. Repeatedly asked questions and their essence has been highlighted as important points in nutshell. More illustrations are added to understand the difficult topics better. Necessary Mnemonics for faster learning have been added. Derived from the renowned multi-volume International Encyclopaedia of Laws, this convenient volume provides comprehensive analysis of the law affecting the physician-patient relationship in India. Cutting across the traditional compartments with which lawyers are familiar, medical law is concerned with issues arising from this relationship, and not with the many wider juridical relations involved in the broader field of health care law. After a general introduction, the book systematically describes law related to the medical profession, proceeding from training, licensing, and other aspects of access to the profession, through disciplinary and professional liability and medical ethics considerations and quality assurance, to such aspects of the physician-patient relationship as rights and duties of physicians and patients, consent, privacy, and access to medical records. Also covered are specific issues such as organ transplants, human medical research, abortion, and euthanasia, as well as matters dealing with the physician in relation to other health care providers, health care insurance, and the health care system. Succinct and practical, this book will prove to be of great value to professional organizations

of physicians, nurses, hospitals, and relevant government agencies. Lawyers representing parties with interests in India will welcome this very useful guide, and academics and researchers will appreciate its comparative value as a contribution to the study of medical law in the international context.
