Purpose and Scope a. This manual is for personnel concerned with the

organization and functions of interior and exterior guard. It includes orders, countersigns, parole words, and responsibility of the main guard including duties of personnel and methods of mounting the guard. The manual also discusses the duties and composition of special guards. b. As this manual is a guide, and as all possible situations and eventualities cannot be foreseen or covered by the manual, great reliance must be placed upon the application of sound judgment and common sense by all members of a guard and by all security personnel. In situations not covered by this manual and where doubt arises as to the proper action to be taken, the individual must consider his mission and apply sound judgment in making the required decision(s).

PREFACE This manual is a guide for commanders and their staffs in the procedures and techniques of foot marches. It describes the march mission, characteristics and types of foot marches, and march training to include planning procedures, duties of commanders, march discipline, march hygiene, and march safety. The material herein applies to all levels of conflict without modification. General Visual signals are any means of communication that require sight and can be used to transmit prearranged messages rapidly over short distances. This includes the devices and means used for the recognition and identification of friendly forces.

PREFACE The purpose of this publication is to assist individual service members, unit commanders unit leaders, and field sanitation teams (FSTs) in preventing disease and nonbattle injury (DNBI). The publication provides information on preventive medicine measures (PMM) for the individual service member as well as essential information for the unit commander, unit leaders, and the FST on applying unit-level PMM. When a problem exists beyond unit capabilities, the brigade or division preventive medicine (PVNTMED) section or corps PVNTMED detachments should be called upon to assist in countering the threat. INTRODUCTION 1-1.1 Purpose. This chapter provides a general history of the development of military diving operations. **1-1.2 Scope.** This chapter outlines the hard work and dedication of a number of individuals who were pioneers in the development of diving technology. As with any endeavor, it is important to build on the discoveries of our predecessors and not repeat mistakes of the past. **1-1.3 Role of the U.S. Navy.** The U.S. Navy is a leader in the development of modern

diving and underwater operations. The general requirements of national defense and the specific requirements of underwater reconnaissance, demolition, ordnance disposal, construction, ship maintenance, search, rescue and salvage operations repeatedly give impetus to training and development. Navy diving is no longer limited to tactical combat operations, wartime salvage, and submarine sinkings. Fleet diving has become increasingly important and diversified since World War II. A major part of the diving mission is inspecting and repairing naval vessels to minimize downtime and the need for dry-docking. Other aspects of fleet diving include recovering practice and research torpedoes, installing and repairing underwater electronic arrays, underwater construction, and locating and recovering downed aircraft.
