Shows how to make fireplaces and stoves burn efficiently, install a wood heater, build a fireplace, and select, cut, and store wood As the title of the book implies, this book is written from the technician workbench point of view. No theories and long stories, therefore what is in this book is what you will expect first hand when a microwave oven is brought to your workshop for repair. The author, Humphrey Kimathi has over 20 years experience in repair and service of home electrical appliances. Microwave oven which was invented in 1958 by accident has become an household name as many families have adopted this mode of warming food in seconds. An increase for the use of this technology has come with the need for personnel to service and maintain these gadgets. Unlike other home electrical appliances, microwave repair is the most dangerous, both to the user and service personnel. In this regard I have dedicated a full chapter on the safety around working on the microwave and also testing microwave leakage for the safety of the user before handing back the machine to the customer and also for the service technician-SAFETY FIRST! Whether you need to repair a strap on a favourite handbag or mend a leak in a washing machine, How to Repair Everything is packed full of tips and tricks of the trade for the person who likes to do-it-yourself. Would you like to have a customer whose budget exceeds \$250 Billion a year for goods and services? You can have that customer. The United States Federal Government is the largest purchaser of goods and services in the world. HAVE YOU EVER SAID ANY OF THESE THINGS? - I don't know how to determine what's wrong with my appliance... - I don't know where to find the right parts I need for the repair... - I don't want to have to buy a new washer, dryer, oven, refrigerator, dishwasher... - I don't want to pay \$100 just to get a technician to show up at my door and then hundreds more for the repair... If you can relate to any of that, then this book is going to be life-changing for you. WHY SHOULD YOU LISTEN TO ME? Many years ago, my dryer died. I was on a shoestring budget and my wife really needed our gas dryer to work. I could not afford to get it fixed or to buy a new one, so I decided to try to fix it myself. I was able to find out that the igniter was bad, and it was really easy to replace. I was able to fix the problem in about an hour and the part only cost about \$15. Since then I have learned how to fix all of my own appliances, I have 2 years college in electrical engineering, 31 years experience in the military and with major companies in the field of electronics and computers, and for the past 8 years. I have had my own appliance repair business and now I get to share my secrets to help you learn to fix your own appliances. Many DIY appliance owners are well able to repair their appliances. They have the basic mechanical skills and the basic tools they need but they lack the knowledge of how to go about doing it. Knowledge is Power. I will help you find that knowledge and apply that power to be able to repair your own appliances. Lenny Duval is a graduate of numerous military electronics schools in both the USAF and the Navy. He graduated at the top of his classes for UHF and VHF communications equipment, Radar, Navigation, and Cryptographic equipment.
